AIDS BYRD****Backs Flight to
South Pole**

Commander Holds All-Day
Conference With Auto
Manufacturers

Detroit Expresses Delight
in Sharing Adventures
of Air Explorer

DETROIT, Aug. 1. (AP)—Edsel Ford will back Commander Richard E. Byrd in his proposed flight to the South Pole, the Detroit Free Press will say tomorrow in a copyrighted story.

Commander Byrd surprised Henry Ford and Edsel Ford with a visit today. After an all-day conference, including a visit to the Ford factory and a luncheon, Edsel Ford announced that his interest in the flight is an enthusiastic one as when Commander Byrd successfully completed his flight over the North Pole. It was understood Edsel Ford furnished a large part of the money which made that flight possible. Commander Byrd naming his plane "Josephine Ford" for one of Edsel Ford's children.

"It is not for any personal interest that I am helping Byrd," Mr. Ford said, "although I do like to live the adventures he has when we can get together and talk them over. It is principally because he is doing a service to aviation and that is all we are trying to do with our aviation enterprise at Dearborn."

Edsel Ford paid high tribute to the man who had crossed the Atlantic Ocean by airplane.

"Byrd is a great fellow," he said. "He is a gentleman, a scientist and altogether likable. I enjoy being behind him in such enterprises. As to the equipment which he will use, we are not yet certain. Of course, the Ford planes are at his service and he inspected both the three-motored plane and the new single-motored five or six-passenger plane to be used Monday."

Byrd and the Ford as at the luncheon at Henry Ford's home. An hour while Byrd told in detail his experiences in his Atlantic flight. Henry Ford told the story of his first automobile.

"Both the Fords are fine men," Byrd said later. "Henry Ford is great because he dreams, has ideas and puts them into practice. It was a pleasure to me to realize I've live interest Mr. Ford has in aviation."

Epoch-making Ship-to-shore Journey at Its Start

Leaving Vessel to Fly Home

The picture shows Chambrin's plane just as it completed a circle and started away from the Leviathan on its flight to shore. The runway aboard the steamer extends lengthwise above its upper deck.

**SCHOOL BOARD'S
HEADS NAMED**

(Continued from First Page)

having charge of educational work of the State, Edwin A. Clement, chief. Schoolhouse planning to pass upon all plans for schools outside incorporated cities having building codes, Andrew P. Hill, assistant superintendent of schools in San Jose and former director of vocational education in San Jose and San Francisco, chief.

AT COOPER'S DIRECTION

The divisions were created and the appointments made on recommendations of William John Cooper, State Superintendent of Public Instruction. There are two other divisions in the reorganization department, those of libraries and division of publications and textbooks, which were created by the board, but their body took no action in appointing the chief. William J. Ferguson, State librarian, holds his post by appointment of the Governor, while no candidate was offered by Cooper for the textbook post. The board, however, did on Cooper's recommendation name W. S. Dyer as chief of the bureau of state-printed textbooks and appointed Mrs. Stella Trueman as chief of the bureau of high-school textbook listing in the latter division.

With the exception of the chief of the division of special education and that of schoolhouse planning all of the holders are old members of the education department who have been given new positions.

**Bomb in Canton
Still Mystery**

CANTON, Aug. 1. (AP)—Police investigating the bombing Sunday of the residence of William G. Maxwell, president of a coal and ice company, tonight had made little progress toward a solution of the crime or toward determining whether the attack was meant for Maxwell or for Judge Robert G. Foster, whose home address is the same as that of Maxwell, but in Twelfth street N. W., instead of N. E.

Police were active in the investigation of the murder of Don B. McIntire, editor of the Canton Daily News, and is attorney for the newspaper.

PLANE LEAVES LINER DECK

(Continued from First Page)

600 persons who had gathered at the New Jersey field despite the rain.

"I could just as well have carried passengers," he said. "I had no trouble taking off from the 'flying bridge,' although there was a fourteen-mile wind blowing. The Leviathan was about thirty-five or forty miles off Fire Island when I hopped off."

He considers the justification of a runway rather than a catapult, such as has been used on battleships, as the most important aspect of the flight.

The plan by which planes are to be used to cut time from voyages would require a plane and aviator be taken aboard vessels when departing, either from foreign or American ports. When ships would arrive at suitable distances from shore the planes, loaded with passengers or mail, or both, would take off from the vessel, as Chambrin took off today.

Several shipping companies have discussed the use of planes in this fashion, and estimates of time cut from ocean voyages have ranged from twenty-four to forty-eight hours for urgent mail or passengers waiting to land.

The United States and Canadian Pacific lines have made public announcements of having considered the use of planes in this fashion.

Today's feat was said to have been arranged by Commodore Hartley and

Chambrin merely to test the straight hop-off rather than the catapulting fashion of launching planes at sea.

FLIGHT PLANNED

SHIPPING BOARD HEAD

WASHINGTON, Aug. 1. (AP)—The flight of Clarence D. Chambrin from the deck of the Leviathan off Fire Island, N. Y., to the fore-runner of a ship and plane service which greatly will reduce the time of ocean travel, Chairman O'Connor of the Shipping Board, declared today.

The Shipping Board, he said, expects as soon as practicable, to equip a number of American ships on the Pacific as well as on the Atlantic, with suitable planes for transporting both passengers and mail.

Mr. O'Connor sent a telegram today to Chambrin congratulating him on the successful outcome of the flight, which was suggested by the chairman.

"Never before has any plane left the deck of a passenger ship without proceeding at full speed on an established ocean route," the chairman said.

"This experiment is the forerunner of a service which will soon greatly reduce the time of transporting ocean mail. Ultimately, I believe, we shall be able to work out a ship and plane service which can be used by a limited number of passengers under emergency conditions."

"I'm still here."

**CAR RUNS WILD,
CRASH HURTS 25**

NEW YORK, Aug. 1. (AP)—Twenty-five persons, many of them women, were thrown to the floor and twenty-five of them were injured so as to require medical attention, when a trolley car ran wild on a down grade and crashed into the rear of a halted car in Brooklyn today.

**Millicent Salm
Will Wed Again**

PARIS, Aug. 1. (Exclusive)—The marriage of Millicent Rogers Salm and the young Argentine, De Balta Arturo Ramon, who succeeded the late, long-remembered count in her affections, will take place in New York in October, it was learned tonight.

Senor Ramon will leave for London tomorrow and will sail for New York Saturday from Southampton, probably following the count's departure.

Senor Ramon admitted for the first time tonight that the engagement is formal and the date is October.

Senor Ramon, who received the congratulations of friends, although of excellent family, Senor Ramon's fortune is holding like that of the Rogers family.

**Lights Fail in
Eastern Towns**

ROCHESTER (N. Y.) Aug. 1. (AP)—Roche and scores of Western New York cities and villages were in darkness for nearly an hour tonight when all electrical power was cut off through some underground cause.

In the darkened Eastman Theater a near-panic among the audience of 3000 was quelled by Fera W. Wrensch, the orchestra leader, who aimed two flashlights used in a feature number and turning them on his face shouted, "I'm still here."

Peering from one side of the stage to the other he flashed the lights on the faces of the players. "We're all here," he called. "We're still here if you will."

The frightened patrons sat down.

**SANTA ANAN HEADS
AUXILIARY OF LEGION**

SANTA BARBARA, Aug. 1. (AP)—Joe Plank of Santa Ana was today elected Grand Chief of the "Forty and Eight" Society, a mid-organization of the American Legion at the State convention here. Arriving delegates were welcomed tonight with a huge bonfire on the beach, given by the local post of the Legion.

**NAVAL SESSION
WILL BE ENDED**

(Continued from First Page)

ence will end soon after Thursday's primary session, if not on that day, unless the deadlock between the British and American delegates is broken by a compromise offer from the latter.

BRITISH ENVOY

AGAIN SEES KELLOGG

WASHINGTON, Aug. 1. (AP)—With a primary session of the naval conference at Geneva set for Thursday, the maritime department of the State Department in Washington, which the Standard Oil of New Jersey will become president of the new shipping subsidiary, all shipping interests of the company, except those of foreign subsidiaries, are to be grouped in the new unit and operated to all intents and purposes as an individual enterprise.

At the office of the Standard Oil of New Jersey no statement could be obtained concerning the reorganization plans. From other sources, however, it was learned that the readjustment of the company's operating status has been under consideration for some time. Enough has been decided upon, it is understood, to make it certain that the company, so far as its operating policy is concerned, is to undergo a drastic readjustment.

The Ambassador visited the Standard Oil of New Jersey on his own motion. It was said at the Embassy that he had been instructed by the London government to see the Secretary, but had desired merely to keep in touch with the departments in connection with the Geneva deadlock.

There were indications preparations are being made for a complete statement of the American position at the primary session. If Ambassador Olcott finds it necessary to reply to the British spokesmen.

JAPANESE STRIVE

TO HAVE CONFERENCE

GENEVA (Switzerland) Aug. 1. (AP)—Successful Japanese mediation efforts held in triplicate naval conference circles tonight to appear to be the only thing that could save the conference from failure.

A lengthy conference of the Japanese delegation was held today, following a meeting between Viscount Ishii and W. C. Bridgman, chief Japanese representative, at which Mr. Bridgman is reported to have asked the Japanese statesman whether he had any suggestions.

The Japanese representatives met to determine whether any means could be devised for a resumption of the eight-inch-gun cruiser difficulty which is causing the deadlock.

From meager information to the Japanese, it was learned that the Japanese are developing a magic formula which would bring the British and Americans closer. However, it was understood the Japanese were continuing their study tentatively.

**Two More Die in
Air-Crash Zone**

CHICAGO, Aug. 1. (AP)—Falling less than a mile from the spot where two aviators were killed Saturday night, two other Chicago flyers met death tonight when their plane crashed from a height of 200 feet in Oak Lawn, a suburb.

The victims were William Quess, 27 years of age, a flying instructor at Ashburne Field, and John Hubby, 35, a student, both of Chicago, secretary of the Chicago Flying Club.

Hubby was flying a rebuilt Canadian plane, which went into a tail spin. Other aviators expressed the hope that the crash would be a warning to the pilots.

The deaths tonight increased the total to seven killed in flying accidents here in eight days.

An air commission, headed by the president of the County Board, as its first order, today established a regular patrol against pilots without Federal licenses operating in Cook county.

**Educator Given
California Post**

SACRAMENTO, Aug. 1. (AP)—Dr. Alexander C. Roberts, professor of education, doctor of extension service, and dean of the summer session of the University of Washington, this afternoon was appointed by the Board of Education as president of the San Francisco Teachers' College.

Dr. Roberts succeeded Archibald Anderson, who died in June only a few weeks after he had received his appointment after serving for two years as acting president.

**STANDARD OIL
TO REORGANIZE****New Jersey Company Plans
Sweeping Readjustment****Vast Activities to be Split Up
Among Subsidiaries****First Step Already Taken
With Marine Interests**

NEW YORK, Aug. 1. (Exclusive)—A sweeping reorganization of the Standard Oil Company of New Jersey, involving the first division of its world-wide interests since the historical dissolution of 1911, will be carried out as soon as plans now under consideration are perfected.

Solely with the idea of increasing operating efficiency and without any outside influence, such as dictated the judicial disintegration by which the original Standard Oil organization was split up sixteen years ago, the interests controlling the New Jersey company are proposing to segregate its far-flung activities through the creation of separate subsidiaries.

Under the readjustment program, which is not yet complete, the Standard Oil Company of New Jersey, now the largest petroleum enterprise in the world, will become the depository for the capital stocks of the component units which will comprise the parent company. The number of individual operating companies to be created has not been determined, it was said today, but there will be several at first and more later on.

SUBSIDIARY CONTROL

Each subsidiary will be managed by an executive who, in most instances, will be a member of the board of directors of the parent company. Eventually, it is expected that all the Standard Oil of New Jersey's present wholly-owned subsidiaries will be operated in this manner.

The Standard of New Jersey expects to acquire the minority stockholdings of a number of its more important subsidiary companies, including the Standard Oil and Refining Company, the International Petroleum Company and Imperial Oil, Ltd., but it may be a long time before this plan is worked out.

Ultimately there will be a complete readjustment of the Standard of New Jersey's interests with the purpose of placing in a number of distinct units the principal operating activities of the company.

FIRST STEP TAKEN

The first step in this direction already has been taken with the organization of the Standard Shipping Company as a subsidiary of the Standard Oil of New Jersey, which the vast marine interests of the Standard of New Jersey will be directed. The same procedure, it is understood, will be followed in the organization of other operating units.

Robert L. Hagren, present manager of the marine department of the Standard Oil of New Jersey, will become president of the new shipping subsidiary. All shipping interests of the company, except those of foreign subsidiaries, are to be grouped in the new unit and operated to all intents and purposes as an individual enterprise.

New Jersey no statement could be obtained concerning the reorganization plans. From other sources, however, it was learned that the readjustment of the company's operating status has been under consideration for some time. Enough has been decided upon, it is understood, to make it certain that the company, so far as its operating policy is concerned, is to undergo a drastic readjustment.

The Ambassador visited the Standard Oil of New Jersey on his own motion. It was said at the Embassy that he had been instructed by the London government to see the Secretary, but had desired merely to keep in touch with the departments in connection with the Geneva deadlock.

RUMANIA FEELS IRON FIS**Premier Supreme, With Queen's Power Fading
Carol's Cause at Lowest Ebb**

BUCHAREST, Aug. 1. (Exclusive)—Although the strictest censorship prevails in Bucharest for the suppression of all newspapers referring to Prince Carol, and although more soldiers are being kept in the capital, the fear of a Carolist uprising is completely discounted. Jan. 1, Rumania's strong-armed Premier, emerges as a dictator without parallel opposition since the funeral of King Ferdinand, and political military is taking the fullest measure to make Prince Carol's return gain the throne futile.

Premier Bratianu is supreme today. Queen Marie already fading from political power. The Premier and last political with the dying King was the latter's refusal to appoint Queen Marie a general so she could revive the army. Queen Marie is an honorary colonel. This action, according to the Bucharest press, sealed Queen Marie's doom as the power behind the throne.

Premier Bratianu scored a success today in his brother-in-law's office, sealed Queen Marie's doom as the power behind the throne.

SHORTAGE SEEN IN RAW RUBBER

Tire Maker Pessimistic on Production of Crude

Grafting Process Will Not Aid for Eight Years

Labor Cost Feared Edison's Greatest Obstacle

NEW YORK, Aug. 1. (P)—Consumption of raw rubber is increasing so much more rapidly than production that the world will face a shortage of crude rubber in three years, in the opinion of William O'Neill, president of the General Tire and Rubber Company of Akron, O., who called early today on the Associated Press to study the rubber situation in England.

Because of the natural increase in the demand, manufacturers are agreed on this point, differing only as to when a shortage will be felt, he said. This year has witnessed a gain in the industry of approximately 15 per cent over 1926, he said, pointing out that the trade as a whole is using more crude rubber.

Measures taken to include the increased yield, including new planting and discovery of the bud-grafting system, will have no effect on the situation for eight years, Mr. O'Neill said.

WAIT EIGHT YEARS

Frank R. Henderson, president of the Rubber Exchange, was misinterpreted when he recently referred to the bud-grafting system, through which it is entirely likely that production can be doubled, or even more than doubled, he said. "Some took his remarks to mean that cheaper rubber could be expected within a very short time, but they failed to take into consideration the fact that it requires eight years for rubber plants to reach the productive stage."

From 1920 to 1926 there was not enough new planting done to take care of the increased demand, he asserted, and while British restriction of rubber exportation has resulted in more planting, this has been done recently that it can have no bearing on the situation for about eight years.

Mr. O'Neill said that rubber manufacturers do not expect Thomas A. Edison's experiments to have an appreciable effect on the situation. "I don't say that he can't get a plant that will produce rubber," he explained, "but when Edison attacks a hard product where labor is paid only six cents a day, he isn't following the lines laid down by most manufacturers. They go after the high-cost line."

CITY LABOR COSTS

He pointed out that labor costs

JAZZ PLAYING ART OR WORK?

Department of Labor Called On to Classify Band Musicians

NEW YORK, Aug. 1. (P)—The United States Department of Labor has been called upon to rule whether all musicians are artists or some merely "laborers" in the field of music.

Joseph W. Weber, president of the American Federation of Musicians, contends some, especially jazz players, are "laborers," and therefore, under the restrictions of the labor laws. The department in a preliminary answer held they were artists and therefore should be permitted free entry. The only "artists," in the opinion of Mr. Weber, are those having obvious genius, such as Kreisler and Heifetz.

Mr. Weber has filed a brief with the department in a test case against the Carlton Hotel Company, Washington, which replaced an American jazz orchestra with one from Europe.

In the rubber-producing centers average about 6 cents a pound, based on a daily wage of 20 cents. In America, he said, where farm labor receives up to 35 a day, discovery of a plant that would grow here would mean the time as much rubber as the best producers in the Straits Settlements still would leave production costs prohibitive.

Rubber at its present price of 54 1-2 cents is selling at a fair figure and is much cheaper than cotton at 15 cents, in Mr. O'Neill's opinion, and he sees no immediate prospects for increased tire prices. However, he does think that tire prices will be higher next year, as he expects the price of crude rubber to advance.

The tire business as a whole, he said, is good and manufacturers are making money.

MONUMENT UNVEILED TO 'QUO VADIS' AUTHOR

BYDGOSS (Bromberg, Poland)

Aug. 1. (P)—President Moeski of Poland attended the unveiling of a monument here yesterday to the memory of Henryk Sienkiewicz, Polish novelist and poet, author of "Quo Vadis."

Messages were received from Premier Poincaré of France and Mussolini of Italy and notable literary men. The unveiling was witnessed by a large crowd.

COOLIDGE GETS FARM BILL VIEW

Capper Says Agriculturalists Still Want Measure

McNary-Haugen Substitute Has Been Unannounced

Equalization Fee Expected to Remain in Demand

RAPID CITY (S. D.) Aug. 1. (P)—President Coolidge turned from the perplexities of naval armament long enough today to hear from Senator Capper of Kansas that the farmers urge for the McNary-Haugen relief bill persists while an "adequate substitute" remains unannounced.

Coming into the Black Hills for a conference at the summer White House, Senator Capper is the first to bring Mr. Coolidge a message that the farmer still wants the equalization fee provision in that long-contested measure and while he is convinced the farmers who favor the McNary-Haugen bill are ready "to listen to reason" he does not think they will give any ground so far as the fee is concerned.

Real water in Congress, he added, the fight for the essential provisions of the measure will be continuing, which, if the Kansas Senator proposes correctly, will be the fourth session in which this long, hard fight has been carried.

Mr. Capper confirmed reports the administration's co-operative marketing bill is being rammed under the direction of Secretary Jardine. This new bill would set up a Federal farm board with power to lend up to \$100,000,000 to co-operatives and farmers. Although Senator Capper long has been an exponent of co-operative marketing, he declared this measure would not meet the present need.

"It would be a fine piece of legislation," he said, "but it does not go far enough."

The Senator joined with his colleagues, Senator Curtis, Republican leader in the Senate, against a special session of Congress.

Senator Capper told how the Republican National Committee of Kansas recently had made a survey of the county chairmen on their views about the Presidency next year. He said that 101 counties of 106 reported that the people generally favored Mr. Coolidge for another term.

"The strength of the President lies in the feeling that he is making progress in government economy and in saving taxes," Frank O. Lowden of Illinois has many friends in Kansas. He is recognized there as a friend of the farmer who has made a good fight, but there is certainly no organized effort there to boost his candidacy.

The Senator voiced considerable protest against the application of railroads for increases in freight rates, particularly in the proposal to boost rates on grain. He favored increasing the tariff on corn and meats against Argentine importations and suggested that a tariff be placed on hides. He thought the duty could be cut on aluminum.

Administration of Oil Reserves Reverts to Navy

WASHINGTON, Aug. 1. (P)—The Navy Department today resumed control of its oil reserves, ending a five-year period of their administration by the Interior Department and reverting the holdings back to the status before they became the subject for a Senate investigation and extensive court litigation.

By executive order of President Coolidge on March 17, last, the Navy received the transfer of its reserves. Mr. Coolidge rescinding the order of President Harding on May 31, 1921, which placed the lands under the Interior Department. The transfer, effective today, was not expected to be accompanied by any ceremony. Three California wells are to remain under control of the Interior Department until Congress enacts bills transferring their jurisdiction.

Under Harding's order, former Interior Secretary Fall leased the Tropic Dome and Elk Hills naval reserves to Harry P. Sinclair and Edward L. Doheny, oil capitalists, which caused one of the greatest scandals and investigations in the country's history. The Navy is expected to adhere to a policy of "keeping the oil in the ground in an effort for conservation."

Exiled Prelate Scores Mexican Church Rulings

SAN ANTONIO (Tex.) Aug. 1. (P)—A prediction that there will be "no religious freedom in Mexico until there is a change in the Mexican laws or government" was made today by Archbishop Mora del Rio of Mexico City, exiled head of the Catholic Church in Mexico. The prediction was part of a statement issued by the archbishop on the anniversary of the closing of the Mexican Catholic church.

Archbishop del Rio said that the close of the year found the Mexican people discontented and many of them in arms because of the religious laws.

The archbishop and eight Mexican bishops are living at Incarnate College here, following their eviction from Mexico three months ago.

Weather Aids Cotton Crop

SACRAMENTO, Aug. 1. (P)—Held back in its early stages by unfavorable weather, California's cotton crop during the past four weeks has made a remarkable growth and if favorable weather continues it may regain all the early season lost ground, officials of the Bureau of Field Crops reported following a tour through the cotton area. Four weeks ago the crop was about three weeks late, but the weather since then has been ideal for rapid growth.

This year's crop is about 39,000 acres short of that planted last season, the plantings totaling only 128,000 acres. Most of the loss resulted from warnings by the Agriculture Department during the early spring against heavy plantings due to the last-season slump in the market, which left many growers unable to dispose of their crops.

BRITISH FOREIGN AIMS DEFENDED

Middlemen to Aid Peace, Says News Official

Policy Compared With That of America in Panama

Institute of Politics Told of Empire's Diplomacy

WILLIAMSTOWN (Mass.) Aug. 1. (P)—If the British Foreign Office "sometimes seems middlemen," it is only that "we may throw our weight as often as possible upon the side of peace and stability," Arthur Willert, head of the Foreign Office's new department, told the members of the Institute of Politics tonight.

"We have never, since the war, gone so far in the direction of paternalism as your State Department," he declared, "when it is intimated to American banking houses it would prefer them not to lend money abroad without consulting it."

He defended British restriction of rubber production by pointing to American efforts to raise the price of cotton, and upheld the British policy in the Near East by comparing it with the American policy in Cuba and Panama.

Had not the British taken action to restrict rubber production, many plantations would have disappeared and it is highly probable rubber would today stand at a higher price than it does," he said.

Turning to criticism of British policy in the Near East, he said the British government had never done anything to discriminate against American oil interests there.

POLICY IN EGYPT

"We are criticized for certain in-

L INDBERGH GETS INDIAN TITLE

Choctaw of Oklahoma Calls Lone Eagle "Greatest White Eagle"

ST. LOUIS, Aug. 1. (P)—The Lone Eagle has a new rating. A Choctaw Indian of Oklahoma offers Lindbergh the name, "Tobloned Chitloaka," "Greatest White Eagle," and added the hope that the colonial will soon "build nest in high tree with lots of 'little eagles'."

New Libel Law Now Effective

SACRAMENTO, Aug. 1. (P)—California's new libel law, enacted by the last Legislature as a direct blow to those said to have been following a policy of "legalized blackmail" through the medium of the divorce courts, is effective today.

The law prohibits those seeking a divorce from making any charges against a third party unless these charges are supported by sworn affidavits.

It was charged by those sponsoring the bill before the Legislature that prominent persons frequently have been named in divorce actions solely for the purpose of making them pay handsome sums so their names would be withdrawn before the case went to trial.

RIVER MEETING DUE THURSDAY

Arizona Accepts Date Set by California

Hunt Finds Fault in Seven State Parley Plan

Gov. Dern May Ask Meeting Called be Postponed

PHOENIX, Aug. 1. (P)—Secretary Winzer of the Arizona Colorado River Commission today notified Gov. Young of California that the Arizona Commission will be ready to meet the California river body here next Thursday. Secretary Winzer was replying to a message from Gov. Young asking if that date would be satisfactory.

Gov. Hunt of Arizona announced that he was not in accord with the suggestion made by Gov. Dern of Utah that the seven-State conference on the 15th inst. be limited to two delegates from each of the seven States.

DERN FAVORS POSTPONING OF SEVEN-STATE PARLEY

DENVER (Colo.) Aug. 1. (P)—Arizona and California will have to settle their differences over division of the lower basin allotment of the Colorado River before a general pact can be ratified, in the opinion of Gov. George H. Dern of Utah, who, with Mrs. Dern, spent today in Denver on his way home from the Governor's conference at Meridian, Miss.

"If, as I have heard," the Governor said, "Arizona and California commissions are planning a meeting to discuss division of water between their States, I believe the conference of the seven Colorado River States should be postponed until its outcome of the meeting of these two States can be learned."

"I got the idea from Florenz Ziegfeld"

Behind the scenes at the Ziegfeld Theatre Gladys Glad is remarking to Flo Kennedy between acts of the Follies.

Florenz Ziegfeld, famous theatrical producer, writes:

"As the producer of 'The Ziegfeld Follies' I know full well how important it is for my stars to have clear voices at all times. Several years ago, when I first began to smoke Lucky Strikes, I noticed that my voice remained unharmed after a most strenuous time directing rehearsals. I passed this information on to my stars and now we are all agreed: Lucky Strike is a delightful smoke and most assuredly protects the voice, eliminating any coughing, which often interrupts a perfect performance."

Florenz Ziegfeld

You, too, will find that Lucky Strikes are mild and mellow—the finest cigarettes you ever smoked, made of the finest Turkish and domestic tobaccos, properly aged and blended with great skill, and there is an extra process—"It's toasted"—no harshness, not a bit of bite.

"It's toasted"

No Throat Irritation—No Cough.

The Largest Laundry in the World—and the Finest!

YOUTH DINING AS VICTIM DIES
Oxnard Boys Sought as Slayers of Cook
Results from Noise of Penny-in-Slot Piano
Owner Prepares Meal Before Finding Chef

VENTURA, Aug. 1.—City and county officers are today searching for two boys, Paul Rice, 24, well-known local man, and a companion, who are charged with the slaying of a local restaurant chef, who died as a result of a fatal stroke, after a result of the fight, which was caused by the noise of a penny-in-slot piano.

The owner of the restaurant, which is located at 208 Oxnard boulevard, was today preparing a meal before finding the chef dead.

The chef, who is known as "Margarita," was found dead in the kitchen of the restaurant, which is located at 208 Oxnard boulevard.

The chef was found dead in the kitchen of the restaurant, which is located at 208 Oxnard boulevard.

Temper of Bees Aroused When Truck Upsets
VENTURA, Aug. 1.—A light truck and trailer, in which John Butcher of Arlington, Cal., and his son, Ray, were taking a load of bees to northern pastures, turned over on the Oxnard grade and spilled the bees and the truck.

The accident occurred about 8:30 p.m. Sunday and State Motor Police officers and men from Camarillo worked for several hours to get the truck righted and to save the bees.

The bees, which were taken from the Oxnard grade, were taken to the Ventura County Beekeepers' Association, which is located at 208 Oxnard boulevard.

Four Burglaries Reported to San Bernardino Police
In Three, Dainty Footprints Are Discovered
Store Safe Loaded on Truck and Carted Away

SAN BERNARDINO, Aug. 1.—Four burglaries, in three of which a woman participated, marked what the police called a crime wave in San Bernardino last night.

The first burglary occurred at the residence of a woman, who was found with her feet in the air, and her hands on the door handle.

The second burglary occurred at the residence of a woman, who was found with her feet in the air, and her hands on the door handle.

ADVERTISING USED AS EXCUSE
Slogan That Orange Juice is Best for Health Lands Redlands Man Before Judge for Helping Himself to Succulent Fruit

REDLANDS, Aug. 1.—Judge C. G. Potter of Redlands Police Court believes in advertising and all that, but he is not so sure about it when it interferes with the wheels of justice.

The defendant, who is a Redlands man, was charged with the theft of a box of oranges, which he had taken from a store, and was found guilty.

GRAPE SHIPPING PLANS ARE LAID
Preparations Made to Handle Bumper Crop of Fruit
Three Agencies to Handle Product This Year
First Market News Letter Out Today

FRESNO, Aug. 1.—With the grape-shipping season getting under way, preparations are being made to handle a bumper crop of fruit.

Three agencies, the California Raisin Marketing Association, the California Raisin Marketing Association, and the California Raisin Marketing Association, are handling the product this year.

POMONA DRY RAIDERS BUSY
Aided by Sheriff's Officers They Place Nine Men in Cells for Liquor Law Violations

POMONA, Aug. 1.—Due to activity of a raiding squad under Deputy Sheriff George Contreras co-operating with constable Alex B. Chambers and Deputy Fred King of the local justice court, supplemented by activities of the local police force, nine men today faced charges of violating liquor laws following a series of raids conducted over the week-end.

Cat, Reverting to Wild, Rears Family in Tree
CAMP NELSON, Aug. 1.—The call of the wild is exemplified here most interestingly by a mother cat which has practically reverted to the primitive and is now raising her second family of kittens in a hole in a hollow tree, forty feet above the ground.

SANTA ANA JAIL CHARGES SIFTED
Nearly Dozen Witnesses Tell of Conditions There
Food Declared Unfit and Poorly Prepared
Denied Men Visited Women's Department

SANTA ANA, Aug. 1.—Nearly a dozen witnesses were called to testify today before the special session of the Orange county grand jury, called into extraordinary session to investigate charges of irregularity in the jail, as well as brutality to prisoners and allied charges.

Bandit Trio Rob Collector for Shell Company
ALHAMBRA, Aug. 1.—A bold daylight hold-up was staged today within two blocks of the business center when three bandits in a sedan forced a Shell Oil Company collector's car into the arms of a nearby building, where they took his money and escaped.

Checks Mailed Orange Heights Citrus Growers
OLIVE, Aug. 1.—Checks totaling \$208,810.16 were sent to the members of the Olive Heights Citrus Association today by Ben H. Cole, president of the association.

PASADENA LEGION AGAIN OUT FOR CUP
PASADENA, Aug. 1.—Three hundred members of the Pasadena Post, No. 13, of the American Legion will leave here Wednesday morning for the annual convention of the Pasadena Legion, which is being held at the Hotel Pasadena.

PROTESTANTS WINNERS
San Diego Council Sustains Complaints Made Against Switzer Storm Drain Project

SAN DIEGO, Aug. 1.—The storm of protest against Switzer storm drain project was so great this morning that the Common Council sustained the complaints and nullified the entire proceedings without hearing arguments, except those of a single individual who told the Council that the longer the matter was put off the greater the cost would be.

SESSION CONCLUDED
Convention of Young People's Branch of Woman's Christian Temperance Union Closes

REDONDO BEACH, Aug. 1.—The fifteen annual convention of the Southern California district of the young people's branch of the W.C.T.U. closed here last night with over 100 delegates present.

TRAILER CRASHES MAN
FULLERTON, Aug. 1.—Lloyd Smith, 24 years of age, employee of a Moody House Moving Company, suffered a fractured hip when a trailer crashed him against a truck.

NEW DRY CHIEF TAKES OFFICE

Lowman Sworn in as Head of Enforcement

Task of Checking Radical Wets and Drys Cited

Praise Given to Organization Left by Andrews

WASHINGTON, Aug. 1. (AP)—Formally taking over the office of Federal prohibition enforcement chief, Seymour Lowman of New York today declared, "Our greatest job is to hold down the activities of the radical wets and the radical drys."

"Temperance and sobriety are commendable virtues," he said. "We want a sober America."

Mr. Lowman, a former Lieutenant-Governor of New York, was sworn in at the Treasury to succeed Lincoln C. Andrews as assistant Secretary in charge of dry-law operations.

"I am looking for honest, efficient enforcement of the prohibition law, just the same as other United States laws are enforced," he said. "Disloyalty will not be tolerated in the prohibition service. I have no policy except an orderly business-like career."

Asked later to amplify his statement about radical wets and radical drys, Assistant Secretary Lowman said:

"By radical wets, I refer to those individuals who are unwilling to accept the Constitution of the United States and the mandates of Congress and who advocate ignoring and nullifying the prohibition law. They have their adequate remedy in changing the Constitution in the regular way by repealing the Eighteenth Amendment."

"By radical drys I refer to those well-meaning, but ill-advised, people who are criticizing the efforts of public officials who are honestly trying to carry out the laws of Congress. Constructive criticism is always helpful, but fault finding by unscrupulous advocates of prohibition is very harmful to the cause of temperance."

San Francisco, Aug. 1. (Exclusive)—Investigation of the bomb explosion Saturday night which killed one man and maimed another, centered tonight on the remnants of some camera film found in and near the automobiles in which the explosion occurred. Captain of Detectives Donald Matheson said the film might show a building destined for destruction if the pieces can be fitted together.

The camera is the admitted property of Angelo C. Luca, insurance agent who had one leg and one arm torn so badly that they probably will be amputated. Luca was in an automobile with Dominick Caffo, carpenter and cabinet maker of Alameda. The latter was blown to bits. Luca said Caffo had the bomb in a small satchel, but avers he did not know anything about it until the explosion occurred. A theory that the bomb may have been meant for the Sacco-Vanzetti demonstration has not been seriously discussed but police believe it remote.

EXCHANGE WIDENS MARKET

Unlisted Division Added by Board of Governors, Giving Investors Greater Facilities and Protection

BY CARL P. MILLER

Action of the board of directors of the Los Angeles Stock Exchange in providing an unlisted securities division for the local exchange, right at the top of the twenty-seven companies from the regular listing for failure to appoint registrars for their stocks in compliance with the board's recent order, is further evidence of the desire of the exchange officials to furnish increased protection for those wishing to deal in securities on the Los Angeles board.

The new unlisted division was inaugurated yesterday with thirty-high grade preferred and common stock issues, most of which are now listed regularly on the San Francisco and eastern exchanges. Quotations were recorded in all of the issues, and sales were made in several, during the first session, demonstrating the character and demand for the securities in this territory.

Inspection of the unlisted market on the exchange here should prove an added protection to the investing public, in that it will substantially reduce curb trading in the stocks and provide a handy market where investors may transfer their holdings on established quotations.

Striking off of the twenty-seven issues yesterday morning does not mean that the companies are not in accord with the demand of the exchange governors. A large number of the companies have been in the market since first listed, some are now closely held and others represent subsidiaries of other corporations.

BOLSA CHICA BACK SPOON

In the case of Polka Chica, one of the most active of the companies from the board, the company did not appear a registrar for its old stock, because of a change in capital structure. An application will be made with the exchange shortly for the listing of its new "A" and "B" stock.

In other words, sixty days are being allowed for the registering of shares, and after October 1 the clearinghouse will not accept certificates without the counter-signature of a registrar. Brokers holding shares on margin will register the securities for their clients.

TO ADD LISTINGS

The management of the Los Angeles Stock Exchange expects to broaden both its listed and unlisted divisions rapidly in the near future, according to Norman Courtney, manager. When companies, whose securities are now traded in the unlisted division, are able to meet the requirements of the exchange for listing and brokers develop trading interest in their shares, it is anticipated they will be removed to the regular list.

Other high-grade issues, including Caterpillar Tractor, Columbia Steel and Pacific Electric, will probably be added to the unlisted section shortly.

Sales in the unlisted securities division should materially increase business on the Los Angeles Stock Exchange. The exchange will not offer a guarantee of the value of the securities, but it will guarantee the clearinghouse of the company's failure to meet registrar requirements, as, above stated, most of these were inactive traders.

All of the companies, whose shares are now listed on the exchange, and those, whose shares are quoted in the unlisted division, will be required to register in accordance with the board's ruling. The unlisted securities will be sold at a discount of 10 per cent from the market value, and will have the privileges of the clearinghouse.

ELECTRIC TRADE

Survey Says Signs of Revival Mark Summer Business

With one month of the second half of the year already past, the electrical industry does not report any particular change in business, the summer season being in the midst of the underlying trade is a current of activity, which is being met by the number of inquiries being received by manufacturers and dealers in electrical equipment.

Several large industrial equipment orders were reported, one amounting to \$700,000.

On the Pacific Coast, many machinery orders were placed, the most outstanding being \$150,000 worth of automatic rotary-converter substitution equipment for the Los Angeles Edison Electric Light Company.

Submitted for the first four units for the Bear Creek power site on the Stanislaus River. The initial development of the project is being handled by the Electric Light and Power Company of California.

A fair volume of business is being transacted in the Middle West and the Southwest, but more optimistic attitude is noticed.

The setback from the season's high records of early last week is considered in the trade as a natural and healthy reaction that should give the market a great deal of good in creating a healthier trading position.

RAIL RATE ON CATTLE VITAL

A sincere desire to gather and present data that would be of benefit in arriving at conclusions based upon economic facts, tending to give the greatest relief and most practical readjustment to the transportation situation as it relates to Western agriculture and the livestock industry, was evinced at the recent hearing conducted in Los Angeles by representatives of the Interstate Commerce Commission, states J. A. McNaughton, vice-president and general manager of the Los Angeles Union Stock Yards Company, in his weekly review of the livestock situation.

The movement of livestock and the production of the producing areas to the metropolitan centers on the Pacific Coast, as well as to Eastern markets, is a question which occupies a most important place in the economic structure of the West.

California has a different cattle situation than prevails in other territories. At this time production is more or less seasonal, with overproduction appearing throughout the year, and the importation of cattle from surrounding states being necessary during other months of the year.

With the advent of better-balanced production and distribution this season, supply will be leveled so that it will move throughout the year, this being accomplished by the Western trend toward feed lot operations, should benefit.

Everyone is convinced that the rate hearings are being carried out along constructive and intelligent lines and that when all of the facts are collected and analyzed that the entire livestock producing West should benefit.

TRAFFIC IN COTTON AT HIGH MARK

World Consumption for Year Ended July 30, 1926, 17,428,000 Bales

NEW ORLEANS, Aug. 1. (P)—The world consumption of American cotton during the season ended with the close of July was fixed at 17,428,000 bales in the annual report of Secretary Henry C. Hester of the New Orleans Cotton Exchange today.

The consumption revealed by the figures was stated to be the greatest growth of 1926 was counted as part of the carryover totaling 7,230,000 bales.

Deducting 207,000 bales of Japanese mill and port stocks from the previous season's consumption made the total 15,151,000 bales.

The world's consumption, Mr. Hester said, had never before reached 17,000,000 bales. Correspondingly, cotton consumption in the Southern States, including linters, was the largest ever known.

Southern consumption was fixed at 5,471,391 bales, 692,465 more than was consumed last year and 1,091,278 more than the previous year.

Secretary Hester said the enormous cotton consumption was largely due to the use of relatively cheap, low-grade cotton, which is a considerable extent was substituted for other growths by mills and other consumers. He added that the world had been used to a considerable extent to the use of relatively cheap, low-grade cotton, which is a considerable extent was substituted for other growths by mills and other consumers.

He added that the world had been used to a considerable extent to the use of relatively cheap, low-grade cotton, which is a considerable extent was substituted for other growths by mills and other consumers.

BANK BULLETIN OPTIMISTIC

National City Holds to View That Business Will Continue Good for Remainder of Year

BY PAUL WILLARD GARRETT

NEW YORK, Aug. 1. (Exclusive)—Business will continue the good pace set months ago right to the end of 1927, is the opinion of the National City Bank of New York, as expressed in its monthly bulletin published today.

This bank, as well as everybody else, is impressed by the unexpectedly favorable profits reported by leading corporations for the second quarter of this year. From the survey of eighty-two companies engaged in different lines of business, the bank's bulletin reveals that earnings for the quarter of 1927 have been, on the average, 15 per cent higher than in the same period last year. Earnings for thirty-five of the companies, or 42.7 per cent, fell.

The bank finds that the combined earnings of the eighty-two companies for the quarter of 1927 were \$1,043,000,000, or 15 per cent higher than in the same period of 1926. The combined earnings of the eighty-two companies for the quarter of 1927 were \$1,043,000,000, or 15 per cent higher than in the same period of 1926.

Strength in Diversification

Bridge builders know that the steel cable, made up of many strands, is stronger than the bar of steel.

Stronger, too, are DIVERSIFIED TRUSTEE SHARES, which represent an investment in 24 companies—woven, like the strands of the cable, into one whole.

NEW YORK BOND PRICES

NEW YORK, Aug. 1. (AP)—Activity and strength of convertible railway issues featured the bond market today, in which prices displayed a generally firm tendency. Accumulation of high-grade mortgages continued in an orderly manner, reflecting the current easy money conditions and the large contraction of the over-supply of new material.

The award of the \$15,000,000 city of Philadelphia issue to a syndicate headed by the First National Bank at a price slightly above par attracted attention in bond circles. These securities are expected to reach the market within a few days. Another municipal offering, \$5,000,000 sanitary districts of Chicago 4-1/2s, is in prospect some time after the 15th inst., when bids will be opened.

Today's listed market again found Erie D 4s among the leaders, with a gain of nearly a point to 128, a new high record. Strength also was displayed by Delaware and Hudson 5s, St. Paul convertible 4-1/2s and Norfolk and Western convertibles, the last named jumping 5 points to 137, a new peak. "Prisco" 4s, Chesapeake 5s, Erie refunding 4s and a few others were in fair demand, but Western Maryland 4s were in supply.

Brooklyn Union Gas debenture 5-1/2s stood out in the public utility list with an advance of 3-4 points to a new maximum of 310. American Writing Paper 5s raised their previous bid price for the year while they sold up 1-1/2 points to 137, while Western Union 5s broke to 20 1/2, fractionally above the year's low.

French bonds continued firm, the government 5s duplicating their previous high. Chilean 5s sold at a new peak after gaining a point, and German 5s, which gave a good account of themselves.

Federal government issues were irregular and quiet.

The positions reported at the close of trading in the other bonds, including foreign, were as follows:

U. S. BULL MARKET
CONTINUES UP

(Continued from Thirteenth Page)

Motor continued to disregard the heavy rumors of price cuts and increasing competition. General Motors pushing a new top at 22 1/2, Hudson at 21 and Chrysler at 20 1/2, although all lost part of their gains on realizing. Oil showed signs of coming to life again on buying believed to have been inspired by the new measures taken to curtail production in the Permian field. Transcontinental Oil developed unusual activity and strength.

Merchandising and mail-order issues responded to steadily expanding earnings, and talk of dividend increases. City Stores B. Kresge, May Department Stores, McCrory Stores, Sears-Robinson, S. H. Kress, J. C. Penney and Woolworth all reached new high ground. Other popular shares to break through their previous maximum prices were American Can, American Smelting, American Tobacco, Baldwin, Brooklyn Union Gas, Du Pont, General Electric, General Motors, International Harvester, Timken Roller Bearing and Union Carbide, the gains running as high as 8 points.

Laclede Gas broke 17 1/4 points to 22 1/2 and rallied to 23. Grease Cananea Copper, which was strong last week, fell nearly 8 points and then rallied. Foundation Company, Warren Brothers, White Motors and Youngtown Sheet and Tube also were conspicuously heavy.

Heavy trading characterized the principal commodity markets. Wheat prices closed slightly higher after an early period of selling based on fears of a British government report that wheat would be sold to 1-3 points net lower, but coffee prices were firm. Sugar quotations showed a little change.

Observance of the bank holiday in London resulted in comparatively light foreign-exchange trading. The dollar sterling and French francs were practically unchanged at 24.85 1/4 and 5.21 7/16 cents, respectively.

Growth of Laundry Industry Regarded as Harbinger of Family Washday's Doom

BY WILLIAM RUSSELL WHITE

NEW YORK, Aug. 1.—In the steady march of civilization well-known household appliances have fallen one by one into the discard. The spinning wheel has become an heirloom, the old-fashioned hand-wrought candlestick has become an antique.

Kerosene lamps, coal stoves, wood boxes and water buckets are fast disappearing, and they are rapidly being replaced by the old family washday. One of the plainest indications in our time of the advance to a higher standard of living is the growth of the laundry industry.

The steam-laundry industry, cheap electric power and inexpensive motor delivery trucks have contributed largely to this industry's expansion, of course, just as they have exerted a powerful influence in all trades.

The ever-increasing demand by housewives for relief from household drudgery, however, has provided the basis for the laundry industry's growth. Mechanical efficiency, abundant power and capable management have brought the service within the reach of all.

Although an increasingly large number of laundry trucks are seen daily on the streets of all im-

INTEREST PAYMENT
Announced on
MEXICO'S
Direct
DEBT

Official announcement has been made by the International Committee of Banks on Mexico in payment of six months' interest on the Mexican Government's debt of \$100,000,000, and calling for presentation of coupons dated July 1, 1927, and prior.

We will gladly cash or forward coupons for collection.

Investigate Mexican Bonds... one of the most unique opportunities in today's bond market.

Bonds furnished on request.

DRUG SUSPECTS SEIZED IN FIGHT

Trio Believed to be Former Chicago Gunmen

Morphine Valued at \$20,000 Taken in Raid

Surprised After Making Narcotic Delivery

In a running gun fight yesterday morning on Whittier Boulevard, John Lando, Joe Miceli and Charles Dotain, said to be former Chicago gangsters, were captured by Federal narcotic agents and morphine valued at more than \$20,000 was seized. The arrest of the three men, Federal agents say, reveals that the local activities of the suspects are linked with a drug-smuggling ring operating in Chicago, Denver, Seattle and San Francisco.

The three men were surprised after they had made delivery of seventy ounces of morphine to one of the Federal agents at a drug store on Whittier Boulevard.

The arrested drug smugglers drove up in two machines. Charles Dotain, who said he had recently arrived in Los Angeles from Denver, was arrested on the spot. The other machine in which Lando and Miceli were riding started to drive away. For several blocks the Federal agents gave chase to the fleeing machine during which shots were exchanged. Lando and Miceli finally were forced to stop and were taken into custody. They were placed in the County Jail and held under \$10,000 bond each.

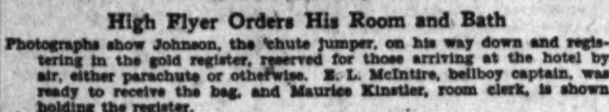

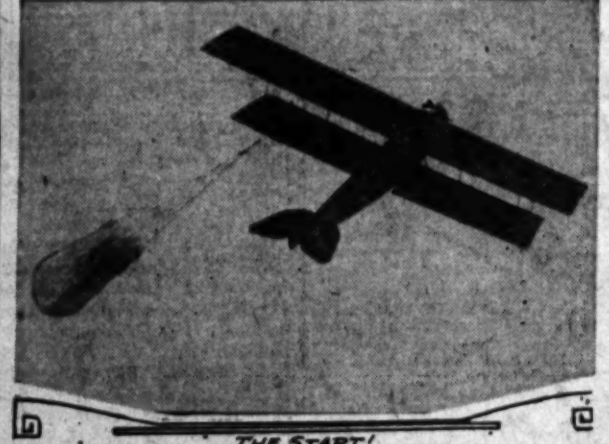

According to Federal Narcotic Inspector Bright, arrangements had been made with the arrested drug peddlers for the delivery of 200 ounces of the drug, but the men had reported they were able to get only seventy ounces in time for the delivery yesterday. Deputy Sheriff Brooks and Tooby assisted in the raid.

BEN BLOW WILL SPEAK

Ben Blow, field secretary of the National Automobile Association, will be the speaker at the luncheon tomorrow of the Motor Club of Los Angeles. He will address the membership upon "Transcontinental Highway Development." Carl Frie and his Maconic Club Orchestra will furnish the musical program.

CITY VISITOR COMES IN BY AIR

Lands by Parachute, Baggage and All

High Flyer Orders His Room and Bath

Photographs show Johnson, the "chute jumper," on his way down and registering in the gold register, reserved for those arriving at the hotel by air, either parachute or otherwise. E. L. McIntire, bellboy captain, was ready to receive the bag and Maurice Kinsler, room clerk, is shown holding the register.

Taxicab Driver Fined on Charge of Pretty Fare

Taxi drivers should watch the road ahead, the taximeter, and, in case it is necessary, should protect their fare instead of annoying them. Municipal Judge Bush told Wallace Coffee, a cab driver, when the latter was brought before the court on complaint of pretty Kathryn McGuire, 908 West Fifty-fifth street. Coffee was charged with battery.

The girl said that she and a girl friend engaged the cab after a party Friday night and started home. After taking the girl friend to her home, Miss McGuire said, the driver speeded past her home. Later he got in the back seat with her, she said, and attempted to make love to her. She finally escaped, she said, and reported the matter to the police.

Judge Bush imposed a fine of \$50 with an alternative of ten days in jail.

PARRISH ASKS SALARY RISE FOR TRUSTY AIDE

Health Officer Parrish yesterday made a plea to the City Council's Finance Committee for an increase in salary for Henry Bief, for fifteen years registrar of vital statistics of the city health department.

Parrish told of the efficiency of Bief, of the long hours worked by him, and of the fact that he had not had increase in salary in ten years. Bief is now receiving \$185 a month and Dr. Parrish asked for an increase to \$250, so that Bief's services can be retained by the city. He has been offered a position at a larger salary with the State Health Department.

DEMPEY TO BE PRESENT

With the ex-champion expected to be the guest of honor Jack Dempsey night will be celebrated at the Edgewater Club Thursday evening. Elaborate plans are being made for the event and will be featured by motion pictures of the Carpentier, Firpo and Tunney battles. This will be the first time the former champion has seen himself fighting the three battles which now are ring history.

AIDE TO LEWIS JAILED IN EAST

Axel Swanson Arrested on Julian Indictment

Keyes Announces Plan to Bring Prisoner Here

Stockholders' Body Attacks Reorganization Scheme

Axel Swanson, secretary and treasurer of the Lewis Oil Company, was arrested at the company's Broadway offices in New York yesterday by request of Dist. Atty. Keyes, who obtained an indictment against Swanson in the Julian Petroleum Corporation's stock overissue and financial collapse. The indictment charged him with conspiracy to violate the State Corporate Securities Act and to obtain money under false pretenses.

Swanson was held for \$20,000 bail, and he will be arraigned today as a fugitive from justice. The District Attorney's chief of detectives, Ben Cohen, at once dispatched a certified copy of the indictment to Inspector of Police Leahy in New York, while Chief Deputy District Attorney Keyes announced that every effort would be made to extradite Swanson here for trial.

Swanson was asserted to have been Lewis's representative in the East in dealing in Julian stocks. He also was asserted to have been close to Jack Bennett, indicted pool operator, in the manipulation of stocks, which the District Attorney declared they knew to be spurious.

SEEK BENNETT

The arrest of Swanson spurred on a search for Bennett, who is said to be hiding in New York, having escaped last week from a trap detectives set for him at a luxurious and exclusive apartment-house where he was living with his wife.

"Swanson will be one of the most important witnesses at the coming trial," Chief Deputy District Attorney Davis said, "and we have instructed the authorities to hold him until the copy of the indictment arrives. Extradition proceedings will be started at once, providing he resists removal from New York."

Shortly before the arrest in the Julian case in the East, Louis L. Horchitz, secretary of the Julian Petroleum Stockholders' Committee, released a statement by the organization attacking the plan of S. C. Lewis, resigned president of the Julian firm, for the reorganization of the financial structure.

NAMES SEVEN POINTS

In seven points set forth from the committee's side the statement declared the stockholders, being creditors in fact, should have first consideration; that all assets be sold; that those who knowingly dealt in the spurious securities should be canceled; urged creation of a first lien bond issue or long-time debenture notes for the refinancing plan; invokes the trustee provisions of the usury law to the full extent; asks issue California-Eastern stock dollar for dollar to bona fide holders of valid Julian stock; insists on acceptance of reported assistance provided by financiers; demands five-party directorate among creditors with one public representative.

Horchitz made the proposal on a proxy vote, urging all shareholders to respond with individual vote on each proposition to him at 811 Financial Center Building.

DIRECTORS TO MEET

A meeting of the board of directors of the California-Eastern Oil Company will be held today to consider Lewis's proposed plan of refinancing and reorganizing the corporation, it was announced last night.

Attorneys for the receivers yesterday filed a civil recovery suit against S. Rosenberg on asserted usury in connection with former loans to the Julian Corporation and involved the usury law which provides for return of three times the amount of the interest obtained. The amount asked for in the complaint is \$10,000.

In the matter of usury Deputy City Prosecutor Jack is understood to have under consideration almost a score of complaints charging usury which he expected to file today or tomorrow.

COURT REPORTER SEEKS \$35,000 FOR TRANSCRIPT

Charles Magee, court reporter, is waiting for \$35,000.

That is the size of his bill from taking and transcribing testimony during the grand jury investigation of the Julian Petroleum Company debacle.

Recently he sent his statement of account to the Board of Supervisors. The gentlemen whistled and sent it on to County Counsel Mattoon. They wanted to know if they had to pay it. Mattoon sent it back to them with a memorandum that in his opinion they had to pay something, but that the law did not say how much.

The board then sent the bill to the grand jury to say how much Magee's services were worth. It was reported at the Hall of Records yesterday that the bill was on its way to the Supervisors with a message to the effect that determination of the proper charge was no matter for grand jurors to worry about, and particularly one of the burdens laid by law on Supervisors.

Magee's statement was computed on the basis provided by law for the pay of reporters in the superior court. It ran to a little more than \$35,000 because the law requires that each indicted person must be supplied with a transcript of the testimony. Thus Magee made fifty copies of the transcript.

Mattoon pointed out that the section of the code relating to stenographic services for the grand jury says only that the reporter's fee is a charge against the county, but does not make a schedule of rates. It has been the practice heretofore to allow the Superior Court schedule on which basis Magee made up his account. If the board decides to exercise its discretion and "trim" the bill, Magee's only recourse will be to sue and have a court determine the reasonable value for his work.

STATE EMPLOYEES RESIGNS

Clive W. Johnson, for more than a year a deputy in the Los Angeles office of the State Corporation Department, resigned yesterday. He will leave private practice in the firm of Hewitt & Ashburn of this city. Mr. Johnson is a graduate of Pomona College and Harvard law school, and has resided in California for the last twenty years.

SERIES OF FREE LECTURES

A series of free lectures on psychological subjects will be given by Fenwick L. Holmes at Trinity Auditorium from Thursday to the 16th inst. inclusive, each evening at 8 o'clock, except Thursdays. The subject for next Thursday evening is "How to Get What You Want."

Eastman Scientists Found the Way

To make Home Movies practical, economical and easy to produce

THIS is the story of a marvelous scientific development in which you are vitally interested.

It is the story of how a group of engineers conquered one of the most difficult photographic problems and at last brought Home Movies within the reach of millions.

What they did

Eight years ago Eastman Scientists marked a goal and set out to attain it. They sought to make Home Movies practical, economical, easy to produce. Their object was to eliminate the mysteries of grinding cranks, long-legged tripods and complicated shutters . . . so that everyone could make movies with professional results.

What happened during those long years of research and experiment matters little.

For these engineers did find a way to simplify the making of movies. Into an easy-to-carry camera weighing only 5 lbs. they concentrated every vital necessity of movie production.

No focusing. No tripod. No grinding crank. Just a simple button to press when you wish to make a picture. A smooth-

Ciné-Kodak

7. Integral winding arm.
8. Exposure guide on camera.
9. Daylight loading.
10. Conveniently shaped and easy to carry.

action, spring-driven motor takes care of the rest.

Then, no troublesome developing. No bother or fuss. The films are finished at no extra cost, and returned to you ready to run and show on your own silver screen.

Complete outfit now costs only \$140

Ciné-Kodak embodies Eastman's forty years' experience in devising easy picture-making methods for the amateur. Unbiased by the precedents and prejudices of professional cinema camera design, the men who made "still" photography so easy have now made home movie-making equally simple for you.

Today a complete outfit, Ciné-Kodak, Kodascope Projector and Screen, may be had for as little as \$140. Ciné-Kodak weighs only 5 lbs. Loads in daylight with amateur standard (16 m/m) Ciné-Kodak safety film, in the famous yellow box.

We are ready to demonstrate and explain the Ciné-Kodak to you. Please come in to see this interesting display. Find out how simple and remarkably inexpensive it is to make Movies this new, easy way.

Hand Signal Use in Traffic Urged

Pending the completion of the \$2,000,000 highway program planned to relieve congested traffic conditions on Ventura Boulevard, Harry H. Merrick, vice-president of Central Motion Picture District, Inc., yesterday drafted a letter to Chief of Police Davis in which he suggested the strict enforcement of hand signals on one of the most heavily traveled highways in the United States.

"The already congested traffic conditions on Ventura Boulevard have been aggravated by the creation of Studio City, which has increased traffic enormously. The jam at Ventura Boulevard and Picoima avenue on Saturdays and Sundays is especially heavy," Mr. Merrick said.

"Conditions have reached the stage where a system of hand signals should be strictly enforced. With an estimated traffic of 122,000 automobiles on Ventura Boulevard last Saturday and Sunday, steps must be taken to avert accidents."

BOYS' ACADEMY WILL CONDUCT LION HUNT

From the summer camp of the Urban Military Academy comes the announcement that the high spot of the season will be reached this week when Jackie Coogan with his guides and pack of hounds will personally lead a mountain lion hunt. The Urban boys and horses have been training for this event under the

staff riding master, Capt. Pilkington, and they have covered all the trails within a radius of twenty miles of the Jackie Coogan ranch, which is the site of the camp. Every boy in the camp has passed the life-saving test and Shaffer method of resuscitation. The boys ride, swim and hunt each day, as well as compete in pack-making, camp-fire building, pup tent pitching, signaling and temporary shelter building. Eight boys built tree houses in which they slept.

BRONSON-AVENUE PARK PROJECT ABANDONED

The proposed condemnation of land on Bronson avenue in the Hollywood district for a public park was abandoned yesterday at the request of property owners in the district, which would have been annexed for the park. The property owners yesterday paid the City Council \$2775.48, which is the cost of the engineering plans and proceedings. The condemnation was planned by adjacent property owners to prevent the property being sold to Japanese but when the cost of the land was ascertained, the property owners believed the assessments would be too high and so raised a fund to repay the city for its expenses and then shopped the project.

ENGAGEMENT ANNOUNCED

Betrothal Told at Bridge-Luncheon

The betrothal of Miss Dorothy Francis, daughter of Mr. Walter Francis, 308 South Oxford avenue, and Ambrose Frederick Edwards, Jr., of Piedmont, was announced recently at a bridge-luncheon given at the Francis home. Among the guests were the mother and sister of the bridegroom-elect, Mr. and Mrs. Ambrose Edwards and Mrs. Flora Edwards (Piedmont). Miss Francis is a Marjorie and a member of the Pi Beta Phi Sorority. Mr. Edwards was graduated in '23 from the University of California at Berkeley, where the young people met. The wedding will be an event of the early autumn.

MAKEREEL PIE
Cut up the required amount of mackerel, season it with parsley, thyme, sweet marjoram and bay leaves. Butter a dish and line it with bread crumbs, put in the fish in layers, with herbs and crumbs between. Add the yolks of four eggs beaten with two tablespoons of tarragon vinegar, cover with a layer of thinly cut bacon and a very thin pie crust. Bake two hours and serve, hot or cold.
RUSSIAN SALAD
Cut eight carrots into dice, three raw tomatoes in slices and chop one onion. Mix with mayonnaise, add the chopped onion, and pour this buffet supper to be given to which a large group of women who are friends and patrons of the regiment have been invited.

Women Voters to Honor Guest

The Los Angeles League of Women Voters is entertaining with an informal tea this afternoon at its headquarters, 808 Bland-Sheep, in honor of Miss Helen D. Pigeon of Washington, D. C. Miss Pigeon is executive secretary of the International Association of Police Women. She is giving a course of lectures at the university and is the house guest of Mrs. John P. Buwalda of Pasadena, whose husband occupies the chair of geology at California Institute of Technology.
Mrs. Ernest Wallace, league chairman for the study of causes and prevention of delinquency, will introduce Miss Pigeon. Among the expected guests are Mrs. Alice Stebbins, Los Angeles pioneer police woman; several familiar officials of the present day; members of the City Mothers' Bureau and several former Reddell College students, of which national group Miss Pigeon is a member.
This tea, from 3 to 4:30 is first of a series planned by the officers and chairman of the league who will act as hostesses. All interested will be welcome.
Japanese Lanterns
When hanging paper lanterns out of doors, avoid their catching fire by putting some sand in the bottom of each lantern. The weight will prevent the lantern from swinging crazily, which usually causes the fire.

HEALTH-DIET ADVICE

By Dr. Frank Mc Coy

"RHEUMATIC DISORDERS"
The various forms of rheumatism may be conveniently classed under either of the two headings, "acute" or "chronic." I realize that many other classifications could be made, and that many "authorities" will disagree with my classification and with my theories regarding the cause and cure of these disorders.
Most physicians believe that rheumatic fever as well as articular rheumatism, arthritis deformans, gonorrheal and tubercular arthritis are all caused by specific bacterial infections. Laboratory findings, however, have not proved this to be true. Where bacteria are found in the body, joints or other parts of the body of the rheumatic patient, they vary in kind, and just when an investigator has found the specific micro-organism which is responsible in a certain form of rheumatism, he is to the fact that in the next case to find this bacterium absent, or some other kind in its place.
The reason rheumatism has proved such a stubborn disease is mostly because physicians have been so busy searching for a specific bacterial cause they have overlooked the fundamental principle that all diseases have their root in the soil of some toxemia, and that even if bacteria can be considered a contributory cause, they cannot be the direct cause any more than vegetables can be the cause of well-fertilized ground.
It is this writer's opinion that those suffering from either rheumatic fever of arthritis must have a definite toxemia or diathesis before an acute attack can develop, or before any chronic form shows in painful or enlarged joints. It is unquestionably true that some forms of vegetable micro-organisms are present in every disease, but the folly is to allow our attention to be sidetracked into considering these ever-present bacteria as fundamental causes of disease. May we not be helped by the deathbed suggestion of the man who originated the germ theory of disease when he said: "If I had my life to live over again, it would be spent in proving that germs are not primarily the cause of disease, but rather that they have the faculty of finding a suitable soil in which to grow."

HOUSEHOLD SUGGESTIONS

Handy Index
I keep my clothesline and clothespins in a 10-cent paper shopping bag. When hanging out clothes the bag can be slung over the arm and the clothespins are right at hand. It is just as convenient when taking down the clothes, as the clothespins are automatically put away as each piece is taken down.
Burnt Matches
Keep a box near the stove for burnt matches. Wrapped lightly in newspaper they make splendid fire lighters to be used in place of wood.
Are You a Walker?
If you are fond of walking, you will find the shoes you use for this purpose will last longer if the soles are dipped into melted wax every few weeks. This will also make them waterproof.

QUESTIONS AND ANSWERS
Question: C. E. W. E. writes: "Two years ago my sister had her gall-bladder removed. Now she has a rash all over her body, and her doctor tells her it is because she has no gall-bladder. What can she do? Would an orange-juice fast do her any good? I have tried the orange-juice fast many times and it does not seem to help her at all." Answer: There is probably no connection between the removal of your sister's gall-bladder and the rash.

over the ingredients, place on a bed of lettuce leaves. Garnish with a tablespoonful of capers.

HAM TIMBALE WITH PEAS
Melt two tablespoonfuls of butter, add one-quarter cupful of fine bread crumbs (bread put through a sieve) and two-thirds of a cupful of milk. Cook five minutes, stirring constantly. Add one cupful of chopped, bottled or baked ham, one-half of a tablespoonful of chopped parsley and two eggs slightly beaten. Turn into a buttered ring mold and set in a pan of hot water. Bake in a moderate oven until firm to the touch. Remove from the mold to a hot serving dish. Fill the center with hot, season peas. Serve with a white sauce.

APPLE PIE
Fill a baked pie crust with the raw apples, which must be grated on a coarse grater, juice of one-half lemon and rind and powdered sugar. I should suggest to grate the apples in a deep plate and mix with the sugar before putting into pie crust. Fill the crust with the apples and spread the whipped cream on, that has been flavored and sweetened a little.

MAKEREEL PIE
Cut up the required amount of mackerel, season it with parsley, thyme, sweet marjoram and bay leaves. Butter a dish and line it with bread crumbs, put in the fish in layers, with herbs and crumbs between. Add the yolks of four eggs beaten with two tablespoons of tarragon vinegar, cover with a layer of thinly cut bacon and a very thin pie crust. Bake two hours and serve, hot or cold.

RUSSIAN SALAD

MAKEREEL PIE
Cut up the required amount of mackerel, season it with parsley, thyme, sweet marjoram and bay leaves. Butter a dish and line it with bread crumbs, put in the fish in layers, with herbs and crumbs between. Add the yolks of four eggs beaten with two tablespoons of tarragon vinegar, cover with a layer of thinly cut bacon and a very thin pie crust. Bake two hours and serve, hot or cold.

RUSSIAN SALAD
Cut eight carrots into dice, three raw tomatoes in slices and chop one onion. Mix with mayonnaise, add the chopped onion, and pour this buffet supper to be given to which a large group of women who are friends and patrons of the regiment have been invited.

MAKEREEL PIE
Cut up the required amount of mackerel, season it with parsley, thyme, sweet marjoram and bay leaves. Butter a dish and line it with bread crumbs, put in the fish in layers, with herbs and crumbs between. Add the yolks of four eggs beaten with two tablespoons of tarragon vinegar, cover with a layer of thinly cut bacon and a very thin pie crust. Bake two hours and serve, hot or cold.

Italian Hors d'Oeuvre and an Exclusive Dressing For Them

HORS D'OEUVRES ITALIAN
Sardines, anchovies, green pepper, chopped together. Add a little oil and vinegar. Make a dressing of the Mazola, and vinegar and pour over.

For each person allow two slices sardines, one anchovy, one pimiento, a spoon of the chopped-cabbage mixture, olives and two radish roses. Put the sardines in the center, arrange the other ingredients around it and garnish with the olives and radishes. Make a dressing of the Mazola, and vinegar and pour over.

DRESSING FOR HORS D'OEUVRES
Combine one teaspoon Karo, one-half Mazola, three tablespoons tarragon or Italian vinegar, one-half teaspoon salt and one-eighth teaspoon pepper. Shake well and serve.

THIS recipe from Ida Allen's New Book (coupon below) gives you a lot of the unusual recipes it contains. You can have Italian d'Oeuvres at home—just as exclusive restaurants serve—with a dressing made of Mazola—the salad oil of first choice of leading chefs. Once you try Mazola for dressings you will never go to using expensive imported

MAZOLA

SEND ONLY 10¢ (STAMPS OR COIN) with this coupon and you will receive a copy of Ida Allen's wonderful new book, attractively bound, containing 112 pages of unusual recipes. Write Johnson, Carroll & Murphy, 347 South Central Ave., Los Angeles, Calif.

FOR purposes of accounting we divide
the year into "periods" of three months
or "QUARTERS." The second "pe-
riod" of this year closed June 30. It requires
some time to compile the figures and know
just what the results of the period's operations
were. These figures are in now and they are
exceedingly gratifying. We are more than
pleased with both total sales and net profits.
They show, very clearly, that Safeway Stores,

Safeway methods, Safeway merchandise, and
Safeway men have won the hearty ap-
proval of Southern California food buyers.
Inspired by this splendid showing we want to
do something extra for our patrons. So, for
a week, beginning Tuesday, August 2, and
ending Saturday, August 6, we offer the folks
of Los Angeles and vicinity a wide variety of
exceptional values in staple, high quality food
stuffs. This is an unusual opportunity to save
and we urge you to take full advantage of it.

SEVERAL ARE OUT OF CAST

Wilkes Makes Changes in List of Those Supporting Edward Horton

Three changes in the supporting cast for "In Love With Love," the comedy starring Edward Everett Horton, opening at the Playhouse Monday night, were announced yesterday by Thomas Wilkes, producer.

Helen Millard will portray the role formerly announced as allotted to Ethel Grey Terry. J. Anthony Smythe will supplant Earl Gerrard, while Victor Lanningwell's part will be carried by Stanley Taylor. John C. Fowler remains in the cast as originally announced.

"SCARLET VIRGIN" IS LURID AFFAIR

A rough and ready drama is "The Scarlet Virgin," which opened last night at the Orange Grove and found enthusiasm with the first-night audience which gathered to see it.

Whether the audience which follows find this play as much to their liking as the first-nighters, depends upon the way they like to take their drama, in thick, gory chunks or otherwise.

CASTING IS BEGUN FOR PLAY

Wyndham Standing, George Pearce and Ida Darling Named by Green

Three of the leading characters in "The Scarlet Virgin," the drama which is being cast by Wyndham Standing, George Pearce and Ida Darling, were named yesterday by the producer, George Pearce.

Miss Costello Visits Uptown

"Star night" will be celebrated at the Uptown Theater this evening, when Dolores Costello will be guest of honor in connection with the premiere showing of her latest starring vehicle, "The Heart of Maryland."

Actor Said to be Liked Here

Albert Van Antwerp, who plays the leading role of John Hampden in William H. Clifford's new "matriarch" play, "Behind the Veil" which will occupy the stage of the Majestic Theater for a limited engagement starting Monday evening, is a past favorite of Los Angeles theatergoers.

BEN LEGERE TO GIVE READING OF O'CASEY

Dublin, London, New York and Chicago have acclaimed "June and the Paycock" by the young Irish playwright, Sean O'Casey, as one of the world's great plays.

STUDENTS WILL SEE "COLLEGE"

An outpouring of students and alumni of the University of California, Southern Branch, is promised for tonight at the Metropolitan Theater, where Buster Keaton in "College" is being shown.

CLEAN PLAY SUPPORTED

That there is an audience in Los Angeles that will support a clean play is demonstrated by the immediate response to Henry Duff's presentation of Don Mullally's comedy, "Laf That Off," at the El Capitan Theater.

BUTLER DIVIDES HIS TIME IN TWO CITIES

Between his duties here as one of the three leaders of the Belasco Theater, for which he directs all stage productions, and in San Francisco, where he has just produced two shows, Fred Butler has a busy time.

Drama Shows Life in the Raw

One of the chief protagonists in Ramon Cerna's Mexican play, "The Scarlet Virgin," the title of which adorns the marquee of the Orange Grove now.

"TWO BLACK CROWS" DELIGHT AUDIENCE

Moran and Mack Fill Pantries to Capacity; Respond With Encores

Every once in a while something or some one goes over "big," and all the specialists and wisecracks get together and explain why. There's Lindbergh, for example, and "The Big Parade," and Jack Dempsey, and "Valencia," and the black bottom, and "The Sheik," and Gracie Gable, and "Abbie's Irish Rose." A few years ago there was a phonograph record, "Cohen on the Telephone." Today it's "Two Black Crows."

EDITOR SUPERVISES PURCHASE OF PLAYS

The preparation of one of the biggest production schedules in the history of the company has been completed by the direct supervision of Edward J. Montague, scenario editor-in-chief of Universal Pictures Corporation.

Director Lauds Christus Play

Robert Vignola, motion-picture director, is an enthusiastic admirer of the Pilgrimage Play. He has seen it twelve times since its premiere in the summer of 1920, and last night he visited the hillside theater in Hollywood for the second time this season.

NANCY CARROLL IS BACK FOR VACATION

Nancy Carroll has returned to Los Angeles after the close of the Louis Macdonald production, "Chicago," in San Francisco last week. The role of Roxie Hart in "Chicago" proved a peerless one for Nancy Carroll's voice, and she will rest for a time before making another stage appearance. It is undecided whether she will appear next in the Los Angeles production of "The Deck," or in a new play in New York this fall.

FLASHES

NAME HAINES LEAD

JOAN CRAWFORD AWARDED ROLE; LASKY'S TWO-REELERS

By Grace Kingsley

Everybody has been on tip-toe, wondering who would be William Haines' leading lady in his next starring vehicle. Metro-Goldwyn-Mayer officials put all rumors at rest yesterday by announcing that Joan Crawford has won the job.

The story, which is by Raymond L. Schrock, is not yet titled, but is a story of West Point and Edward Sedgwick will direct with scenes made at the eastern National Military Academy, Haines and Sedgwick have already departed for the East, arriving in New York today.

Miss Crawford has not been in New York since she left there, a dancer of the "The World" 1920, years ago. Since that time she has changed her name and has climbed to the top in pictures. She will leave for the East within the next three days.

Paramount Plans Short Subjects

Planning what might be termed a little tragedy relief for its feature-length comedies is what Paramount seems to be getting ready to do.

Short dramatic subjects, to be run on programs with feature-length motion-picture comedies, are one of the innovations planned for the immediate future, according to Jesse L. Lasky, who left for New York yesterday.

Frank Borzage, Fox Director, Isn't to Have Much More Time in Which to Turn the Flying Jib and Otherwise Monkey Around

Frank Borzage, Fox director, isn't to have much more time in which to turn the flying jib and otherwise monkey around on that new yacht of his.

His playtime, in fact, is over, and he went into conference yesterday with Sol M. Wurtzel and other Fox executives regarding his next picture, which is to co-star Janet Gaynor and Charles Farrell, and which is being adapted by Frances Agnew, under supervision of Philip Klein from the novel by Philip Klein from the novel by Philip Klein.

Lucille Irwin, Little Hawaiian Society Girl, Came to Hollywood Eight Months Ago and Who Has Been Leading in Comedies

Lucille Irwin, the little Hawaiian society girl who came to Hollywood eight months ago and who has been leading in comedies, is not to be a comedienne any longer.

Universal, however, has signed with Neal Hart to make a ten-chapter serial, "The Girl in the Saddle," which is to be based on "The Girl in the Saddle," a story by Arthur Somers Roche.

Miss Borden and Her Company, Who Have Been Making Scenes in the Region of Lake Louise for the Past Five Weeks, Are Scheduled to Return Here Thursday

Miss Borden and her company, who have been making scenes in the region of Lake Louise for the past five weeks, are scheduled to return here Thursday. J. G. Blystone is director.

Lucille Irwin Signs

Lucille Irwin, the little Hawaiian society girl who came to Hollywood eight months ago and who has been leading in comedies, is not to be a comedienne any longer.

Universal, however, has signed with Neal Hart to make a ten-chapter serial, "The Girl in the Saddle," which is to be based on "The Girl in the Saddle," a story by Arthur Somers Roche.

Humor and Pathos BLEND IN PAGEANT

When the curtain rises at the Pilgrimage Play this evening for the Los Angeles presentation of Mrs. Lillian J. Crow's historical pageant of humor and pathos, "Out of the Past," the audience will be greeted by a group of well-trained Egyptian dancers in appropriate costumes. It is said that Lucille Irwin, trainer of the Egyptian dancers, and Lottie Bold Anderson, city school dance instructor, who trained the minut and the minut, will each other for group perfection.
